

DANVILLE CHADBOURNE

DANVILLE CHADBOURNE SCULPTURE+PAINTINGS

AUGUST 9 - OCTOBER 22, 2016 / GALLERY 3

Primarily a sculptor in clay and wood, Danville Chadbourne works in a range of materials and formats. Over the years he has created a complex body of work unified by a primal iconography and distinctive vision, often evoking the artifacts of an unknown culture. This anthropological quality emerges from a very personal and consistent, formal aesthetic and philosophical sense.

This exhibition features Chadbourne's use of wood as both a sculptural and graphic medium. Emphasizing the natural, expressive quality of the material, the works are marked by Chadbourne's sense of color and form, informed by his philosophical meditations.
